

To Claudio M Paleari  
BD Manager, Petro Trace

Dear Mr. Paleari,

I am writing this letter to you on behalf of Edison Norge geophysicists team in order to thank you for your timely delivery of high quality seismic imaging and exceptional services.

We are extremely happy with your company and your highly professional seismic processing team and would love to conduct more project of this nature with your company in the near future.

As an exploration company in Norway our success totally depend upon availability of super high quality seismic data and for this, requirement of a reliable vendor is crucial. Petro Trace have proved to be a trustworthy and efficient processing provider to us and we are very grateful for your efforts and work ethics. High level of weekly technical and scientific discussions between our teams of professionals have been the key to the success. Your team patiently paid attention to very details of the depth imaging flow and applied state-of-the-art technology to create high quality data for us.

We would like to consider Petro Trace as our main processing consultant is our future projects.

Thanking you again

Pourdad Farzadi

Principal Geophysicist  
Edison
